VIOLATION OF CALIFORNIA HEALTH AND SAFETY CODE 116555(a)(1)  
AND  
DIRECTIVES OF COMPLIANCE ORDER NO. 03-24-16R-025**

The State Board, acting by and through its Division of Drinking Water (hereinafter "Division") and the Deputy Director for the Division, hereby issues this citation pursuant to Section 116650 of the CHSC to the JD Heiskell Holdings LLC (hereinafter "Water System") for violation of CHSC, Section 116555(a)(1) and directives of Compliance Order No. 03-24-16R-025.

1 A copy of the applicable statutes and regulations are included in Appendix 1,  
2 which is attached hereto and incorporated by reference.

### 3 4 **STATEMENT OF FACTS**

5 Division is informed by the JD Heiskell Holdings LLC (hereinafter "Water  
6 System") and believes that the Water System is a nontransient  
7 noncommunity water system located in Tulare County that supplies water for  
8 domestic purposes to approximately 60 individuals through 4 service  
9 connections. The Water System operates under a domestic water supply  
10 permit (No. 03-24-17P-011) issued by the Division on January 20, 2017.  
11 The Water System is a nontransient noncommunity public water system as  
12 defined in CHSC, section 116275.

13  
14 The Division issued Compliance Order No. 03-24-16R-025 to the Water  
15 System on May 17, 2016 for noncompliance with the nitrate maximum  
16 contaminant level (hereinafter "MCL"). A copy of the Compliance Order is  
17 included as Attachment 2. The Compliance Order directed the Water  
18 System to take certain actions, including the following Directives:

- 19 1. On or before **June 15, 2019**, comply with Title 22, CCR, Section  
20 64431 and remain in compliance.
- 21 2. On or before **June 15, 2016**, submit a written response to the  
22 Division indicating the Water System's agreement to comply with  
23 the directives of this Order and with the Corrective Action Plan  
24 addressed herein.
- 25 3. Commencing on the date of service of this Order, provide  
26 quarterly public notification in accordance with Attachment B,  
27 hereto, of the Water System's failure to meet the nitrate MCL (10

mg/L as N) during any calendar quarter that the sample results exceeds the MCL.

4. Commencing on the date of service of this Order, submit proof of each public notification conducted in compliance with Directive No. 3, herein above, within 10 days following each such notification, using the form provided as Attachment C, hereto.
5. Commencing on the date of service of this Order collect quarterly samples for nitrate as N from Well 01, as required by Section 64432(g), and ensure that the analytical results are reported to the Division electronically by the analyzing laboratory no later than the 10<sup>th</sup> day following the month in which the analysis was completed.
6. Prepare for Division approval a Corrective Action Plan identifying improvements to the water system designed to correct the water quality problem (violation of the nitrate MCL) and ensure that the Water System delivers water to consumers that meets primary drinking water standards. The plan shall include a time schedule for completion of each of the phases of the project such as design, construction, and startup, and a date as of which the Water System will be in compliance with the nitrate MCL, which date shall be no later than June 15, 2019.
7. On or before **August 15, 2016**, present the Corrective Action Plan required under Directive No. 6, above, to the Division in person at the Division's offices located at 265 W. Bullard Avenue, Suite 101, Fresno, CA 93704.
8. Timely perform the Division approved Corrective Action Plan and each and every element of said plan according to the time schedule set forth therein.

- To date, the Water System has failed to comply with Directive Nos. 6, 7, and 9 of Compliance Order No. 03-24-16R-025. The Water System has not presented a Corrective Action Plan (CAP) for correction of the nitrate MCL to the Division. The Water System continues to violate the nitrate MCL and does not appear to be making progress towards the compliance deadline established in Directive No. 1 of Compliance Order No. 03-24-16R-025. Having failed to prepare and present a CAP (Directive Nos. 6&7) to the Division, the Water System has failed to routinely submit the required quarterly progress reports showing actions taken during the previous calendar quarter to comply with the CAP, as required by Directive No. 9.

Based on the above Statement of Facts, the Division has determined that the Water System has violated CHSC, Section 116555 and further has determined that said violation has continued from August 15, 2016, and through the date of this Citation.

## ADMINISTRATIVE PENALTIES

Section 116650(a) of the CHSC allows for the issuance of a citation for failure to comply with the requirements of the California Safe Drinking Water Act, or any regulation, permit, standard, citation, or order issued thereunder. Section 116650(d) and (e) allow for the assessment of a penalty not to exceed one thousand dollars (\$1,000) per day for each day that a violation occurs.

The Water System has failed to comply with the Directives of Compliance Order No. 03-24-16R-025. Therefore, the Division hereby assesses an administrative penalty of one thousand dollars (\$1,000) upon the JD Heiskell Holdings LLC Water System.

## DIRECTIVES

The Water System is hereby directed to take the following actions:

1. On or before **June 15, 2019**, comply with Title 22, CCR, Section 64431 and remain in compliance.
2. Prepare for Division approval a Corrective Action Plan identifying improvements to the water system designed to correct the water quality problem (violation of the nitrate MCL) and ensure that the Water System delivers water to consumers that meets primary drinking water standards. The plan shall include a time schedule for completion of each of the phases of the project such as design, construction, and startup, and a date as of which the Water System

1 will be in compliance with the nitrate MCL, which date shall be no  
2 later than June 15, 2019.

3  
4 3. On or before May 10, 2017, present the Corrective Action Plan  
5 required under Directive No. 6, above, to the Division in person at the  
6 Division's offices located at 265 W. Bullard Avenue, Suite 101,

14 submit a report to the Division in the form provided as Attachment D,  
15 hereto, showing actions taken during the previous calendar three  
16 months to comply with the Corrective Action Plan.

17  
18 6. Notify the Division in writing no later than five (5) days prior to the  
19 deadline for performance of any Directive set forth herein if Water  
20 System anticipates it will not timely meet such performance deadline.  
21

22 7. Pay the Penalty of \$1,000 on or before May 10, 2017. Payment shall  
23 be made by check and made payable to the Safe Drinking Water

25 instruction on submittal of payment is provided in Attachment 3 of this  
26 Citation, *Notice of Citation Issuance*.  
27

1 The requirement to pay the Penalty and any and all additional penalties shall  
2 be suspended until May 10, 2017. Such suspension of the requirement to  
3 pay the Penalty and any and all additional penalties may be extended by the  
4 Division beyond May 10, 2017. Such extension may be effected only by  
5 written notice from the Division to the Water System. Additionally, the  
6 requirement to pay the Penalty and any and all penalties may be waived if  
7 the Division, in its sole discretion, determines that the Water System has  
8 complied with the directives of this Citation. Such waiver may be effected  
9 only by written notice from the Division to the Water System.

10  
11 All submittals required by this Citation, other than the payment of the  
12 Penalty, shall be addressed to:

22 Citation as it may deem necessary to protect public health and safety. Such  
23 modifications may be issued as amendments to this Citation and shall be  
24 effective upon issuance.

26 Nothing in this Citation relieves the Water System of its obligation to meet  
27 the requirements of the California SDWA (CHSC, Division 104, Part 12,  
28 Chapter 4, commencing with Section 116270), or any regulation, standard,

This Citation shall apply to and be binding upon the Water System, its owners, shareholders, officers, directors, agents, employees, contractors, successors, and assignees.

**SEVERABILITY**

The directives of this Citation are severable, and the Water System shall comply with each and every provision thereof notwithstanding the effectiveness of any provision.

**FURTHER ENFORCEMENT ACTION**

The California SDWA authorizes the State Board to: issue a citation with assessment of administrative penalties to a public water system for violation or continued violation of the requirements of the California SDWA or any regulation, permit, standard, citation, or order issued or adopted thereunder including, but not limited to, failure to correct a violation identified in a citation or compliance order. The California SDWA also authorizes the State Board to take action to suspend or revoke a permit that has been issued to a public water system if the public water system has violated applicable law or regulations or has failed to comply with an order of the State Board, and to petition the superior court to take various enforcement measures against a public water system that has failed to comply with an order of the State Board. The State Board does not waive any further enforcement action by issuance of this Citation.

Title 22, CCR Section 64432 (hereinafter "Section 64432") provides in relevant part:

**Section 64432.1**

(a) To determine compliance with the MCL for nitrate in Table 64431-A, all public water systems using groundwater and transient-noncommunity systems using approved surface water shall monitor annually, and all community and nontransient-noncommunity systems using approved surface water shall monitor quarterly.

(1) The water supplier shall require the laboratory to notify the supplier within 24 hours whenever the level of nitrate in a single sample exceeds the MCL, and shall ensure that a contact person is available to receive such analytical results 24-hours a day. The water supplier shall also require the laboratory to immediately notify the Division of any acute nitrate MCL exceedance if the laboratory cannot make direct contact with the designated contact person within 24 hours. Within 24 hours of notification, the water supplier shall:

(A) Collect another sample, and

(B) Analyze the new sample; if the average of the two nitrate sample results exceeds the MCL, report the result to the Division within 24 hours. If the average does not exceed the MCL, inform the Division of the results within seven days from the receipt of the original analysis.

(C) If a system is unable to resample within 24 hours, it shall notify the consumers by issuing a Tier 1 Public Notice pursuant to section 64463.1 and shall collect and analyze a confirmation sample within two weeks of notification of the results of the first sample.

(2) For public water systems using groundwater, the repeat monitoring frequency shall be quarterly for at least one year following any one sample in which the concentration is greater than or equal to 50 percent of the MCL. After four consecutive quarterly samples are less than the MCL, a system may request that the Division reduce monitoring frequency to annual sampling.

### **STATEMENT OF FACTS**

Division is informed by the JD Heiskell Holdings LLC Water System (hereinafter "Water System") and believes that the Water System is a nontransient noncommunity water system located in Tulare County that supplies water for domestic purposes to approximately 60 individuals through four service connections. The Water System operates under Domestic Water Supply Permit issued by Tulare County. The Water System is a nontransient noncommunity public water system as defined in CHSC, section 116275.

The Water System utilizes one groundwater well (Well 01) as its source of domestic water. Title 22, CCR, Division 4, Chapter 15, Article 4, establishes primary drinking water standards and monitoring and reporting requirements for inorganic constituents. Community and nontransient noncommunity water systems must comply with the maximum contaminant level for nitrate (as N) of 10 mg/L, as established in Title 22 CCR Section 64431.

The Water System was issued a Notice of Violation in 2013 by Tulare County for exceeding the nitrate standard. However, no compliance order was issued. In July 2014, the Division was given primacy over the Water System. Since that time, the Water System has been conducting quarterly sampling of its well for nitrate and provided its employees and customers with public notification for the nitrate exceedance quarterly.

A sample collected from the Water System on April 12, 2016, showed a nitrate concentration of 11 mg/L (as N) in Well 01. Sample results from November 2015 to present are provided in Table 1 below:

**Table 1: Well 01 Nitrate Monitoring Results**

<b>Sample Date</b>	<b>Well 01</b>
11/11/15	11.9 mg/L
1/13/16	12.3 mg/L
4/12/16	11 mg/L

Specifically, the Water System exceeded the nitrate MCL (10 mg/L as N) by delivering water to the distribution system that was over the nitrate MCL. The last sample result collected on April 12, 2016 was 11 mg/L as N.

By regulation, public notification is required on a quarterly basis as long as the well is being used. The Water System must also provide the Division with proof of public notification.

1 **DETERMINATIONS**

2 Based on the above Statement of Facts, the Division has determined that the Water  
3 System has violated CHSC, Section 116555 and Section 64431 in that the water  
4 produced by Well 01, exceeded the nitrate MCL, and further has determined that  
5 said violation has continued from April 12, 2016, and through the date of this Order.  
6

7 **DIRECTIVES**
